*Advancing the principles of freedom in the 21<sup>st</sup> century*

The 10th Annual Freedom 21 National Conference  
August 13-15, 2009, Midwest City, OK

## The Growing American Tyranny and How to Stop It

Our country has changed dramatically over the last 2 decades, leaving most people wondering what happened.

International policy agreements such as Agenda 21 and other treaties have caused the American people to lose more of the freedoms traditionally enjoyed in this country. From personal, property and travel rights, to education and health care choices, life as we've known it has changed.

Freedom 21 has worked for the last 10 years to educate citizens and public officials about the reality of the political agenda known as Sustainable Development and it's ultimate outcome - the destruction of private property and the end of freedom for the American public.

For the first time ever, the Freedom 21 National Conference will be held in Oklahoma, the state in the national spotlight in the freedom movement. Make plans to attend this important conference today...

Guest Speakers include:

- Chuck Baldwin - Attacks on the Freedom Movement and How to Fight Back
